

Tempo change for any track

Tap the slower or faster arrows for a 2% tempo change. In this case I've tapped slower 4 times:

For faster changes (by 1%) drag finger left or right over the tempo arrows:

To return to normal (0% tempo change) tap the % value in the center.

For your owned tracks, tempo change is real time, not interrupting playback.

For rented, cloud, or DRM protected tracks, there will be a brief pause with each tempo change (unavoidable).
